Allowable Subject Matter

Claims 1 – 18 are allowed. The prior art of record fail to teach controlling engagement of a clutch which carries torque before, during and after a shifting event in a transmission which is connected to a throttle-controlled engine, comprising, among other limitations, providing a feed-forward input command which increases as the engine torque increases, and decreases as the engine torque decreases; providing a feedback input command which is a function of an error value equaling a calculated difference between measured clutch slip and a reference slip profile, wherein said reference slip profile includes: a driving portion in which a first low slip amount is maintained; a pre-shift portion in which slip is increased from said first low slip amount to a medium slip amount when approaching a vehicle shift speed; a during-shift portion in which slip increases from said medium slip amount to a peak slip amount and then decreases to a second low slip amount; and a post-shift portion in which the second low slip amount is maintained; and summing said feed-forward input command and said feedback input command to provide a clutch control command for controlling engagement of the clutch before, during and after the shifting event to allow a desired amount of clutch slip to damp excitation of the transmission.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Yonel Beaulieu/ whose telephone number is (571) 272-

Art Unit: 3661

6955. The examiner can normally be reached on Mon., Wed. & Thur. between 0900 and 1600.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas BLACK can be reached on (571) 272-6956. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
